PROFESSIONAL EXPERIENCE

BIOSPHERES GROUP

2025 – **Regenerative agriculture and agroecology consultant**

Regenerative agriculture projects, soil restoration, biodiversity enhancement, ecological monitoring, development of sustainable solutions, support for farmers, development of science-based methods, practical application.

HERBAFARM AGRICULTURAL PRODUCTION AND SALES LTD.

2023 – 2024 **Plant protection and scientific consultant**

Plant protection observations, development of an ecological plant protection system, scientifically rigorous experimental investigation of plant protection problems arising on the farm, formulation of proposed solutions.

2022 – 2023 **Deputy Production Manager**

Horticultural engineering and plant health tasks, supplemented by the management of daily tasks, professional and administrative management of organic farming and beekeeping. Communication with the competent authorities, operational management of production and post-harvest tasks (drying, threshing, warehouse records, etc.).

2018 – 2021 **Expert in Plant Protection**

Professional management and administration of an ecologically oriented plant protection system, communication with the relevant authorities, organization of daily plant protection tasks, participation in plant organization.

2017 – 2018 **Horticultural engineer**

Management of medicinal and aromatic plant cultivation (rosehip, oregano, fennel, sage).

AGROLYNX ZRT.

2023 – 2024

Agronomy, biotechnology and plant protection expert

Validation and construction of agrobotany, zoology, and plant pathology databases; harmonization and digitization of pesticide product and active ingredient database structures (in Hungarian and English). Beta testing, evaluation, and consulting for farm management software.

LOGINDA RESEARCH AND INNOVATION INSTITUTE LTD.

2022 – 2023

Scientific advisor

Validation and construction of agrobotany, zoology, and plant pathology databases; harmonization and digitization of pesticide product and active ingredient database structures (in Hungarian and English); review and consultation.

2021 – 2022

Research Assistant

Validation of agrobotany, zoology, and plant pathology databases (in Hungarian and English).

STUDIES

2021 –

Budapesti University of Technology and Economics

Applied Geoinformatics

2018 – 2020

Szent István University – OKJ 32 621 02

Beekeeper

2017 – 2025

Hungarian University of Agricultural and Life Sciences

Doctoral School of Horticultural Sciences

2015 – 2017

Szent István University, Faculty of Horticultural Science

Expert in Plant Protection, MSc

2011 – 2015

Corvinus University of Budapest, Faculty of Horticultural Science

Horticultural Engineering, BSc

PERSONAL PROJECTS

2025- **Parasztvakítás (professional educational project)**

A data-driven, critical professional content project examining misleading or over-marketed claims in agriculture.

- *Analyses and articles based on scientific sources.*
- *Critical evaluation of pseudoscientific claims.*
- *Strengthening professional education and critical thinking in the agricultural sector.*
- *Promoting an evidence-based approach.*

<https://www.parasztvakitas.hu/>

2021- **Fekete Technológia (podcast, professional platform)**

Co-founder and host of a professional podcast focusing on agriculture and plant protection.

- *Easy-to-understand, yet professionally sound coverage of scientific and practical topics.*
- *Expert interviews, presentation of technological and agricultural innovation trends.*
- *Knowledge transfer, professional education, and community building.*
- *Content development, editing, communication, and dissemination.*
